Shotrover

Studio Licence — unlimited seats · perpetual licence for version 1.x

Licensor	Kalib Arrowsmith (British Columbia, Canada)
Licensee	The organisation named on the purchase receipt for this licence
Software	Shotrover 1.x — https://github.com/KCArrow/shotrover
Seats	**any number of users**

1. Grant

In exchange for the licence fee, the Licensor grants the Licensee a perpetual, non-exclusive, non-transferable licence to install and use the Software for commercial purposes by **any number of users**, on any number of computers owned or controlled by the Licensee, at any of its locations. This licence replaces, for the Licensee, the noncommercial-only limitation of the PolyForm Noncommercial License 1.0.0 under which the Software is published.

2. Who may use it

The Licensee's employees, and contractors and freelancers while working for the Licensee, including on computers the Licensee provides or manages. This licence covers their use on the Licensee's behalf. A freelancer's use on their own computers does not depend on this licence: it is free of charge under the additional permission for freelancers in the Software's LICENSE file.

3. Updates

All releases of Shotrover version 1.x are included. Later major versions (2.0 and above) may be offered under a separate licence.

4. Modifications

The Licensee may modify the Software and integrate it with its own pipeline tools for internal use. Modified versions may not be distributed outside the Licensee's organisation.

5. Restrictions

The Licensee may not sell, sublicense, rent or redistribute the Software or this licence, transfer it to another organisation, or offer the Software as part of a product or service to third parties. If the Licensee is acquired or merges, the licence continues for the surviving organisation.

6. Notices

Copyright and licence notices in the Software must be kept, including the line *Required Notice: Copyright Kalib Arrowsmith (https://github.com/KCArrow/shotrover).*

7. No warranty, no liability

The Software is provided as is, without warranty of any kind. To the extent the law allows, the Licensor is not liable for any damages arising from the Software or this licence, and the Licensor's total liability is limited to the licence fee paid. Support, custom development and integration work are not included and may be arranged separately.

8. Ending

This licence ends automatically if the Licensee breaches it and does not fix the breach within 30 days of written notice. Fees are non-refundable except where required by law.

9. Law

This licence is governed by the laws of British Columbia and the federal laws of Canada applicable there.

10. Proof of licence

This document together with the purchase receipt is the Licensee's proof of licence. Keep both on file.
